Lithium Marine Batteries

Muller Energy delivers **premium lithium batteries** designed to elevate your boating experience with dependable power and advanced built-in safety systems. Our Lithium Marine Batteries feature high-quality CATL cells and a 5A active balancer, ensuring long-term durability, stable performance, and maximum efficiency.

They give you the confidence and reliability needed for smoother, safer, and more enjoyable adventures on the water, even during demanding marine conditions, providing consistent energy for navigation systems, lighting, accessories, and extended time offshore without worry, while also reducing maintenance needs and offering superior efficiency compared to traditional battery setups for modern boating requirements.

Go Further, Faster with Muller Energy Lithium Marine Batteries

Unlock a new level of on-water performance with lightweight, high-output lithium power. Enjoy smoother acceleration, greater efficiency, and significantly reduced battery weight for enhanced handling.

With rapid recharge times and consistent energy delivery, you'll spend less time waiting at the dock and more time exploring. Experience the power that lets you travel further, move faster, and elevate every moment of your boating adventure.

5 Years Australian Warranty

Our lithium boat batteries come with a 5-year Australian warranty for peace of mind on the water.

Bluetooth Connectivity

The 250A custom JBD BMS with Bluetooth lets you monitor and optimise your battery from your smartphone.

Advanced Safety Features

Our batteries feature a BMS discharge switch to prevent sparking and ensure safe connections.

Touchscreen Display

Stay informed with real-time data on your battery's performance through an easy-to-use touchscreen display.

Why Choose Lithium Batteries for Your Boat?

Maximise your boating adventures with our robust **LiFePO4 lithium batteries**, engineered to withstand harsh marine environments. Lightweight, highly efficient, and exceptionally dependable, these batteries are a true game-changer for boat owners who demand long-lasting performance, consistent power delivery, and worry-free reliability on every journey.

Longevity

Lithium batteries last much longer than traditional lead-acid batteries. This means fewer replacements and more reliable performance on every voyage.

Efficiency

With a higher energy density, our lithium marine batteries provide more power in a compact and lightweight package. This improves fuel efficiency, lowers running costs, and enhances boating experience.

Consistent Power Output

Unlike traditional batteries, lithium batteries maintain stable voltage throughout their discharge cycle. This ensures consistent power for your boat's electronics and systems.

Lightweight & Compact

Lithium boat batteries are much lighter and more compact than lead-acid batteries. This improves your boat's weight distribution and frees up space for additional gear.

200Ah LiFePO4

Australia's Premier Choice for Lithium Batteries

At Muller Energy, we are proud to be Australia's top choice for high-quality lithium batteries. Our team of passionate Australian engineers has meticulously designed every product to meet the needs of our diverse customer base. From the very first screw to the final product, we ensure that every battery we sell represents the pinnacle of durability, efficiency, and innovation.

GET IN TOUCH

We believe in providing sustainable energy solutions that not only meet today's needs but also pave the way for a greener tomorrow. As solar energy equipment suppliers, we strive to make clean energy accessible and affordable for every Australian, contributing to a more eco-friendly future.
